PRODUCT INFORMATION

The National Cancer Society recommends 25-40 grams of fiber per day1, but the typical North American diet includes only 8-10 grams of daily fiber. UNICITY LIFIBER, a psyllium-based powder drink, provides ample high-quality dietary fiber and herbs that are beneficial to the gastrointestinal tract.

LIFIBER offers increased effectiveness by including a special dietary fiber called fructooligo saccharide (FOS). Derived from chicory root, FOS is a naturally sweet substance that cannot be digested by human digestive enzymes. FOS is mainly used as a source of food for beneficial intestinal bacteria.

In addition, LIFIBER includes 29 different herbs that supply both insoluble and soluble fiber. Studies indicate that soluble fiber may help sustain healthy blood cholesterol, while insoluble fiber passes quickly through the digestive system and helps eliminate unwanted wastes.

SCIENCE

Exclusive Fiber Matrix

Unicity’s fiber blend provides soluble and insoluble fibers, along with prebiotics that help contribute to healthy gut bacteria. With a healthy balance of microbiota in the gut, the digestive system can work more efficiently and adverse digestive symptoms may decrease over time with regular use².

A low-residue diet causes a gluey state that cannot be efficiently processed by the intestines. The colon is the solid waste management organ for the entire body, and mucous and rubber-like waste can easily adhere to the colon walls. The colon is the easiest breeding ground for microorganisms.

Skin blemishes, bad breath and fatigue can be linked to a congested colon. A semi-annual colon cleanse promotes a healthy digestive system. When waste backs up, other elimination organs become overburden in their duties. Cleansing your colon lightens the load on every part of your body. In fact, a colon cleanse may help promote your body to function at it’s best.

All your cells are fed by your blood. Some of the nutrients that reach your blood get there by the way of the colon. So a clogged dirty colon may mean unwanted components in your blood. Fiber’s significance comes from its ability to move food through the digestive system quickly and easily.
